

## Senate Bill No. 1252

### CHAPTER 632

An act to amend Section 4041 of the Civil Code, to amend Section 65589.5 of the Government Code, and to amend Sections 33411.3, 34178.8, 50076.5, 50517.5, and 50843.5 of the Health and Safety Code, relating to housing.

[Approved by Governor September 28, 2022. Filed with  
Secretary of State September 28, 2022.]

#### LEGISLATIVE COUNSEL'S DIGEST

SB 1252, Committee on Housing. Housing.

(1) Existing law, the Davis-Stirling Common Interest Development Act, defines and regulates common interest developments. Existing law requires an association to distribute specified annual reports to its members, to solicit members' delivery preference for notices from the association, and to record the collected preferences at least 30 days before distributing the annual budget report.

This bill would require an association to record the collected preferences at least 30 days before distributing the annual budget report and the annual policy statement.

(2) Existing law, the Housing Accountability Act, requires a housing development project to be subject only to the ordinances, policies, and standards adopted and in effect when a preliminary application is submitted, except as specified. Existing law specifies the act does not prohibit a housing development project that is an affordable housing project from being subject to ordinances, policies, and standards adopted after the preliminary application was submitted if the project has not commenced construction within 3.5 years. Existing law defines "affordable housing project" for purposes of those provisions to mean a housing development in which units within the development are subject to a recorded affordability restriction for at least 55 years, among other things.

This bill would instead require either that units within the development be subject to a recorded affordability restriction for at least 55 years for rental housing and 45 years for owner-occupied housing or that the first purchaser of each unit participate in an equity sharing agreement, as specified.

(3) Existing law, the Community Redevelopment Law, authorized the establishment of redevelopment agencies in communities to address the effects of blight, as defined. Existing law dissolved redevelopment agencies as of February 1, 2012, and provides for the designation of successor agencies for specified purposes. Existing law authorizes a city or county that created a subsequently dissolved redevelopment agency to elect to retain

the housing assets and functions previously performed by the agency, which entity is referred to as a housing successor. Existing law requires that if all or any portion of a redevelopment project was developed with low- or moderate-income housing units and those units were developed with any agency assistance or pursuant to specified provisions, the agency or its successor require, by contract, that the housing be made available for rent or purchase to the persons and families of low or moderate income displaced by the redevelopment project and to persons of low or moderate income who are descendants of the person displaced by the redevelopment project and who, at the time of displacement, were not living in the household or had not yet been born, as specified.

This bill would additionally require that the housing be made available to those persons and families described above if they meet the income eligibility and other requirements for that housing, and would make other conforming changes.

Because the bill would require local agencies to perform additional duties, the bill would impose a state-mandated local program.

(4) For purposes of the Zenovich-Moscone-Chacon Housing and Home Finance Act, existing law defines “limited equity housing cooperative” to mean a corporation organized, as specified, that is also a nonprofit corporation or nonprofit housing sponsor.

This bill would update and correct cross-references contained in that definition.

(5) Existing law requires the Department of Housing and Community Development to establish and administer the Joe Serna, Jr. Farmworker Housing Grant Program to provide loans for the construction or rehabilitation of rental housing and loans to assist development projects involving multiple home ownership units for lower-income agricultural employees and their families, as specified. Existing law requires the department to administer the funds provided for this purpose consistent with specified existing housing programs.

This bill would specify that the loan terms for these loans are required to be consistent with those same existing housing programs, as specified.

(6) Existing law establishes the Local Housing Trust Fund Matching Grant Program for the purpose of supporting local housing trust funds dedicated to the creation or preservation of affordable housing. Existing law requires that at least 30% of the total amount of funds are spent on projects, units, or shelters that are affordable to extremely low-income households and that no more than 20% of the total amount of funds are spent on projects or units that are affordable to moderate-income households, as specified.

This bill would instead require that at least 30% of dwelling units or shelter beds assisted by the funds are affordable to extremely low-income households and that no more than 20% of dwelling units assisted by the funds are affordable to moderate-income households, as specified.

(7) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

*The people of the State of California do enact as follows:*

SECTION 1. Section 4041 of the Civil Code is amended to read:

4041. (a) A member shall, on an annual basis, provide written notice to the association of all of the following:

(1) The member's preferred delivery method for receiving notices from the association, which shall include the option of receiving notices at one or both of the following:

(A) A mailing address.

(B) A valid email address.

(2) An alternate or secondary delivery method for receiving notices from the association, which shall include the option to receive notices at one or both of the following:

(A) A mailing address.

(B) A valid email address.

(3) The name, mailing address, and, if available, valid email address of the owner's legal representative, if any, including any person with power of attorney or other person who can be contacted in the event of the member's extended absence from the separate interest.

(4) Whether the separate interest is owner-occupied, is rented out, if the parcel is developed but vacant, or if the parcel is undeveloped land.

(b) (1) The association shall solicit the annual notices described in subdivision (a) of each owner and, at least 30 days before making its own required disclosure under Sections 5300 and 5310, shall enter the data into its books and records.

(2) The association shall include in the solicitation required by paragraph (1) both of the following:

(A) Notification that the member does not have to provide an email address to the association.

(B) A simple method for the member to inform the association in writing that the member wishes to change their preferred delivery method for receiving notices from the association.

(c) If a member fails to provide the notices set forth in subdivision (a), the last mailing address provided in writing by the member or, if none, the property address shall be deemed to be the address to which notices are to be delivered.

(d) (1) To the extent that interests regulated in Chapter 2 (commencing with Section 11210) of Part 2 of Division 4 of the Business and Professions

Code are part of a mixed-use project where those interests comprise a portion of a common interest development, the association, as defined in Section 4080, shall be deemed compliant with this section if, at least once annually, it obtains from the time-share plan association a copy of the list described in subdivision (e) of Section 11273 of the Business and Professions Code, and enters the data into its books and records.

(2) Notwithstanding subdivision (e) of Section 11273 of the Business and Professions Code, the time-share plan association shall provide the list required by paragraph (1) to the association at least annually for this purpose.

(e) For the purposes of this section, a valid email address is one that, after a notice is sent, does not result in a bounce or other error notification indicating failure of the message. If the association delivers a notice to a member's email address and finds that the email address provided is no longer valid, the association shall resend the notice to a mailing or email address identified by the member pursuant to Section 4040.

SEC. 2. Section 65589.5 of the Government Code is amended to read:

65589.5. (a) (1) The Legislature finds and declares all of the following:

(A) The lack of housing, including emergency shelters, is a critical problem that threatens the economic, environmental, and social quality of life in California.

(B) California housing has become the most expensive in the nation. The excessive cost of the state's housing supply is partially caused by activities and policies of many local governments that limit the approval of housing, increase the cost of land for housing, and require that high fees and exactions be paid by producers of housing.

(C) Among the consequences of those actions are discrimination against low-income and minority households, lack of housing to support employment growth, imbalance in jobs and housing, reduced mobility, urban sprawl, excessive commuting, and air quality deterioration.

(D) Many local governments do not give adequate attention to the economic, environmental, and social costs of decisions that result in disapproval of housing development projects, reduction in density of housing projects, and excessive standards for housing development projects.

(2) In enacting the amendments made to this section by the act adding this paragraph, the Legislature further finds and declares the following:

(A) California has a housing supply and affordability crisis of historic proportions. The consequences of failing to effectively and aggressively confront this crisis are hurting millions of Californians, robbing future generations of the chance to call California home, stifling economic opportunities for workers and businesses, worsening poverty and homelessness, and undermining the state's environmental and climate objectives.

(B) While the causes of this crisis are multiple and complex, the absence of meaningful and effective policy reforms to significantly enhance the approval and supply of housing affordable to Californians of all income levels is a key factor.

(C) The crisis has grown so acute in California that supply, demand, and affordability fundamentals are characterized in the negative: underserved demands, constrained supply, and protracted unaffordability.

(D) According to reports and data, California has accumulated an unmet housing backlog of nearly 2,000,000 units and must provide for at least 180,000 new units annually to keep pace with growth through 2025.

(E) California's overall homeownership rate is at its lowest level since the 1940s. The state ranks 49th out of the 50 states in homeownership rates as well as in the supply of housing per capita. Only one-half of California's households are able to afford the cost of housing in their local regions.

(F) Lack of supply and rising costs are compounding inequality and limiting advancement opportunities for many Californians.

(G) The majority of California renters, more than 3,000,000 households, pay more than 30 percent of their income toward rent and nearly one-third, more than 1,500,000 households, pay more than 50 percent of their income toward rent.

(H) When Californians have access to safe and affordable housing, they have more money for food and health care; they are less likely to become homeless and in need of government-subsidized services; their children do better in school; and businesses have an easier time recruiting and retaining employees.

(I) An additional consequence of the state's cumulative housing shortage is a significant increase in greenhouse gas emissions caused by the displacement and redirection of populations to states with greater housing opportunities, particularly working- and middle-class households. California's cumulative housing shortfall therefore has not only national but international environmental consequences.

(J) California's housing picture has reached a crisis of historic proportions despite the fact that, for decades, the Legislature has enacted numerous statutes intended to significantly increase the approval, development, and affordability of housing for all income levels, including this section.

(K) The Legislature's intent in enacting this section in 1982 and in expanding its provisions since then was to significantly increase the approval and construction of new housing for all economic segments of California's communities by meaningfully and effectively curbing the capability of local governments to deny, reduce the density for, or render infeasible housing development projects and emergency shelters. That intent has not been fulfilled.

(L) It is the policy of the state that this section be interpreted and implemented in a manner to afford the fullest possible weight to the interest of, and the approval and provision of, housing.

(3) It is the intent of the Legislature that the conditions that would have a specific, adverse impact upon the public health and safety, as described in paragraph (2) of subdivision (d) and paragraph (1) of subdivision (j), arise infrequently.

(b) It is the policy of the state that a local government not reject or make infeasible housing development projects, including emergency shelters, that

contribute to meeting the need determined pursuant to this article without a thorough analysis of the economic, social, and environmental effects of the action and without complying with subdivision (d).

(c) The Legislature also recognizes that premature and unnecessary development of agricultural lands for urban uses continues to have adverse effects on the availability of those lands for food and fiber production and on the economy of the state. Furthermore, it is the policy of the state that development should be guided away from prime agricultural lands; therefore, in implementing this section, local jurisdictions should encourage, to the maximum extent practicable, in filling existing urban areas.

(d) A local agency shall not disapprove a housing development project, including farmworker housing as defined in subdivision (h) of Section 50199.7 of the Health and Safety Code, for very low, low-, or moderate-income households, or an emergency shelter, or condition approval in a manner that renders the housing development project infeasible for development for the use of very low, low-, or moderate-income households, or an emergency shelter, including through the use of design review standards, unless it makes written findings, based upon a preponderance of the evidence in the record, as to one of the following:

(1) The jurisdiction has adopted a housing element pursuant to this article that has been revised in accordance with Section 65588, is in substantial compliance with this article, and the jurisdiction has met or exceeded its share of the regional housing need allocation pursuant to Section 65584 for the planning period for the income category proposed for the housing development project, provided that any disapproval or conditional approval shall not be based on any of the reasons prohibited by Section 65008. If the housing development project includes a mix of income categories, and the jurisdiction has not met or exceeded its share of the regional housing need for one or more of those categories, then this paragraph shall not be used to disapprove or conditionally approve the housing development project. The share of the regional housing need met by the jurisdiction shall be calculated consistently with the forms and definitions that may be adopted by the Department of Housing and Community Development pursuant to Section 65400. In the case of an emergency shelter, the jurisdiction shall have met or exceeded the need for emergency shelter, as identified pursuant to paragraph (7) of subdivision (a) of Section 65583. Any disapproval or conditional approval pursuant to this paragraph shall be in accordance with applicable law, rule, or standards.

(2) The housing development project or emergency shelter as proposed would have a specific, adverse impact upon the public health or safety, and there is no feasible method to satisfactorily mitigate or avoid the specific adverse impact without rendering the development unaffordable to low- and moderate-income households or rendering the development of the emergency shelter financially infeasible. As used in this paragraph, a “specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified written public health or safety standards, policies, or conditions as they existed on the date the

application was deemed complete. The following shall not constitute a specific, adverse impact upon the public health or safety:

(A) Inconsistency with the zoning ordinance or general plan land use designation.

(B) The eligibility to claim a welfare exemption under subdivision (g) of Section 214 of the Revenue and Taxation Code.

(3) The denial of the housing development project or imposition of conditions is required in order to comply with specific state or federal law, and there is no feasible method to comply without rendering the development unaffordable to low- and moderate-income households or rendering the development of the emergency shelter financially infeasible.

(4) The housing development project or emergency shelter is proposed on land zoned for agriculture or resource preservation that is surrounded on at least two sides by land being used for agricultural or resource preservation purposes, or which does not have adequate water or wastewater facilities to serve the project.

(5) The housing development project or emergency shelter is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation as specified in any element of the general plan as it existed on the date the application was deemed complete, and the jurisdiction has adopted a revised housing element in accordance with Section 65588 that is in substantial compliance with this article. For purposes of this section, a change to the zoning ordinance or general plan land use designation subsequent to the date the application was deemed complete shall not constitute a valid basis to disapprove or condition approval of the housing development project or emergency shelter.

(A) This paragraph cannot be utilized to disapprove or conditionally approve a housing development project if the housing development project is proposed on a site that is identified as suitable or available for very low, low-, or moderate-income households in the jurisdiction's housing element, and consistent with the density specified in the housing element, even though it is inconsistent with both the jurisdiction's zoning ordinance and general plan land use designation.

(B) If the local agency has failed to identify in the inventory of land in its housing element sites that can be developed for housing within the planning period and are sufficient to provide for the jurisdiction's share of the regional housing need for all income levels pursuant to Section 65584, then this paragraph shall not be utilized to disapprove or conditionally approve a housing development project proposed for a site designated in any element of the general plan for residential uses or designated in any element of the general plan for commercial uses if residential uses are permitted or conditionally permitted within commercial designations. In any action in court, the burden of proof shall be on the local agency to show that its housing element does identify adequate sites with appropriate zoning and development standards and with services and facilities to accommodate the local agency's share of the regional housing need for the very low, low-, and moderate-income categories.

(C) If the local agency has failed to identify a zone or zones where emergency shelters are allowed as a permitted use without a conditional use or other discretionary permit, has failed to demonstrate that the identified zone or zones include sufficient capacity to accommodate the need for emergency shelter identified in paragraph (7) of subdivision (a) of Section 65583, or has failed to demonstrate that the identified zone or zones can accommodate at least one emergency shelter, as required by paragraph (4) of subdivision (a) of Section 65583, then this paragraph shall not be utilized to disapprove or conditionally approve an emergency shelter proposed for a site designated in any element of the general plan for industrial, commercial, or multifamily residential uses. In any action in court, the burden of proof shall be on the local agency to show that its housing element does satisfy the requirements of paragraph (4) of subdivision (a) of Section 65583.

(e) Nothing in this section shall be construed to relieve the local agency from complying with the congestion management program required by Chapter 2.6 (commencing with Section 65088) of Division 1 of Title 7 or the California Coastal Act of 1976 (Division 20 (commencing with Section 30000) of the Public Resources Code). Neither shall anything in this section be construed to relieve the local agency from making one or more of the findings required pursuant to Section 21081 of the Public Resources Code or otherwise complying with the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(f) (1) Except as provided in subdivision (o), nothing in this section shall be construed to prohibit a local agency from requiring the housing development project to comply with objective, quantifiable, written development standards, conditions, and policies appropriate to, and consistent with, meeting the jurisdiction's share of the regional housing need pursuant to Section 65584. However, the development standards, conditions, and policies shall be applied to facilitate and accommodate development at the density permitted on the site and proposed by the development.

(2) Except as provided in subdivision (o), nothing in this section shall be construed to prohibit a local agency from requiring an emergency shelter project to comply with objective, quantifiable, written development standards, conditions, and policies that are consistent with paragraph (4) of subdivision (a) of Section 65583 and appropriate to, and consistent with, meeting the jurisdiction's need for emergency shelter, as identified pursuant to paragraph (7) of subdivision (a) of Section 65583. However, the development standards, conditions, and policies shall be applied by the local agency to facilitate and accommodate the development of the emergency shelter project.

(3) Except as provided in subdivision (o), nothing in this section shall be construed to prohibit a local agency from imposing fees and other exactions otherwise authorized by law that are essential to provide necessary public services and facilities to the housing development project or emergency shelter.

(4) For purposes of this section, a housing development project or emergency shelter shall be deemed consistent, compliant, and in conformity with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision if there is substantial evidence that would allow a reasonable person to conclude that the housing development project or emergency shelter is consistent, compliant, or in conformity.

(g) This section shall be applicable to charter cities because the Legislature finds that the lack of housing, including emergency shelter, is a critical statewide problem.

(h) The following definitions apply for the purposes of this section:

(1) “Feasible” means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

(2) “Housing development project” means a use consisting of any of the following:

(A) Residential units only.

(B) Mixed-use developments consisting of residential and nonresidential uses with at least two-thirds of the square footage designated for residential use.

(C) Transitional housing or supportive housing.

(3) “Housing for very low, low-, or moderate-income households” means that either (A) at least 20 percent of the total units shall be sold or rented to lower income households, as defined in Section 50079.5 of the Health and Safety Code, or (B) 100 percent of the units shall be sold or rented to persons and families of moderate income as defined in Section 50093 of the Health and Safety Code, or persons and families of middle income, as defined in Section 65008 of this code. Housing units targeted for lower income households shall be made available at a monthly housing cost that does not exceed 30 percent of 60 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the lower income eligibility limits are based. Housing units targeted for persons and families of moderate income shall be made available at a monthly housing cost that does not exceed 30 percent of 100 percent of area median income with adjustments for household size made in accordance with the adjustment factors on which the moderate-income eligibility limits are based.

(4) “Area median income” means area median income as periodically established by the Department of Housing and Community Development pursuant to Section 50093 of the Health and Safety Code. The developer shall provide sufficient legal commitments to ensure continued availability of units for very low or low-income households in accordance with the provisions of this subdivision for 30 years.

(5) Notwithstanding any other law, until January 1, 2030, “deemed complete” means that the applicant has submitted a preliminary application pursuant to Section 65941.1 or, if the applicant has not submitted a preliminary application, has submitted a complete application pursuant to Section 65943.

(6) “Disapprove the housing development project” includes any instance in which a local agency does either of the following:

(A) Votes on a proposed housing development project application and the application is disapproved, including any required land use approvals or entitlements necessary for the issuance of a building permit.

(B) Fails to comply with the time periods specified in subdivision (a) of Section 65950. An extension of time pursuant to Article 5 (commencing with Section 65950) shall be deemed to be an extension of time pursuant to this paragraph.

(7) “Lower density” includes any conditions that have the same effect or impact on the ability of the project to provide housing.

(8) Until January 1, 2030, “objective” means involving no personal or subjective judgment by a public official and being uniformly verifiable by reference to an external and uniform benchmark or criterion available and knowable by both the development applicant or proponent and the public official.

(9) Notwithstanding any other law, until January 1, 2030, “determined to be complete” means that the applicant has submitted a complete application pursuant to Section 65943.

(i) If any city, county, or city and county denies approval or imposes conditions, including design changes, lower density, or a reduction of the percentage of a lot that may be occupied by a building or structure under the applicable planning and zoning in force at the time the housing development project’s application is complete, that have a substantial adverse effect on the viability or affordability of a housing development for very low, low-, or moderate-income households, and the denial of the development or the imposition of conditions on the development is the subject of a court action which challenges the denial or the imposition of conditions, then the burden of proof shall be on the local legislative body to show that its decision is consistent with the findings as described in subdivision (d), and that the findings are supported by a preponderance of the evidence in the record, and with the requirements of subdivision (o).

(j) (1) When a proposed housing development project complies with applicable, objective general plan, zoning, and subdivision standards and criteria, including design review standards, in effect at the time that the application was deemed complete, but the local agency proposes to disapprove the project or to impose a condition that the project be developed at a lower density, the local agency shall base its decision regarding the proposed housing development project upon written findings supported by a preponderance of the evidence on the record that both of the following conditions exist:

(A) The housing development project would have a specific, adverse impact upon the public health or safety unless the project is disapproved or approved upon the condition that the project be developed at a lower density. As used in this paragraph, a “specific, adverse impact” means a significant, quantifiable, direct, and unavoidable impact, based on objective, identified

written public health or safety standards, policies, or conditions as they existed on the date the application was deemed complete.

(B) There is no feasible method to satisfactorily mitigate or avoid the adverse impact identified pursuant to paragraph (1), other than the disapproval of the housing development project or the approval of the project upon the condition that it be developed at a lower density.

(2) (A) If the local agency considers a proposed housing development project to be inconsistent, not in compliance, or not in conformity with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision as specified in this subdivision, it shall provide the applicant with written documentation identifying the provision or provisions, and an explanation of the reason or reasons it considers the housing development to be inconsistent, not in compliance, or not in conformity as follows:

(i) Within 30 days of the date that the application for the housing development project is determined to be complete, if the housing development project contains 150 or fewer housing units.

(ii) Within 60 days of the date that the application for the housing development project is determined to be complete, if the housing development project contains more than 150 units.

(B) If the local agency fails to provide the required documentation pursuant to subparagraph (A), the housing development project shall be deemed consistent, compliant, and in conformity with the applicable plan, program, policy, ordinance, standard, requirement, or other similar provision.

(3) For purposes of this section, the receipt of a density bonus, incentive, concession, waiver, or reduction of development standards pursuant to Section 65915 shall not constitute a valid basis on which to find a proposed housing development project is inconsistent, not in compliance, or not in conformity, with an applicable plan, program, policy, ordinance, standard, requirement, or other similar provision specified in this subdivision.

(4) For purposes of this section, a proposed housing development project is not inconsistent with the applicable zoning standards and criteria, and shall not require a rezoning, if the housing development project is consistent with the objective general plan standards and criteria but the zoning for the project site is inconsistent with the general plan. If the local agency has complied with paragraph (2), the local agency may require the proposed housing development project to comply with the objective standards and criteria of the zoning which is consistent with the general plan, however, the standards and criteria shall be applied to facilitate and accommodate development at the density allowed on the site by the general plan and proposed by the proposed housing development project.

(k) (1) (A) (i) The applicant, a person who would be eligible to apply for residency in the housing development project or emergency shelter, or a housing organization may bring an action to enforce this section. If, in any action brought to enforce this section, a court finds that any of the following are met, the court shall issue an order pursuant to clause (ii):

(I) The local agency, in violation of subdivision (d), disapproved a housing development project or conditioned its approval in a manner rendering it infeasible for the development of an emergency shelter, or housing for very low, low-, or moderate-income households, including farmworker housing, without making the findings required by this section or without making findings supported by a preponderance of the evidence.

(II) The local agency, in violation of subdivision (j), disapproved a housing development project complying with applicable, objective general plan and zoning standards and criteria, or imposed a condition that the project be developed at a lower density, without making the findings required by this section or without making findings supported by a preponderance of the evidence.

(III) (ia) Subject to sub-subclause (ib), the local agency, in violation of subdivision (o), required or attempted to require a housing development project to comply with an ordinance, policy, or standard not adopted and in effect when a preliminary application was submitted.

(ib) This subclause shall become inoperative on January 1, 2030.

(ii) If the court finds that one of the conditions in clause (i) is met, the court shall issue an order or judgment compelling compliance with this section within 60 days, including, but not limited to, an order that the local agency take action on the housing development project or emergency shelter. The court may issue an order or judgment directing the local agency to approve the housing development project or emergency shelter if the court finds that the local agency acted in bad faith when it disapproved or conditionally approved the housing development or emergency shelter in violation of this section. The court shall retain jurisdiction to ensure that its order or judgment is carried out and shall award reasonable attorney's fees and costs of suit to the plaintiff or petitioner, except under extraordinary circumstances in which the court finds that awarding fees would not further the purposes of this section.

(B) Upon a determination that the local agency has failed to comply with the order or judgment compelling compliance with this section within 60 days issued pursuant to subparagraph (A), the court shall impose fines on a local agency that has violated this section and require the local agency to deposit any fine levied pursuant to this subdivision into a local housing trust fund. The local agency may elect to instead deposit the fine into the Building Homes and Jobs Trust Fund. The fine shall be in a minimum amount of ten thousand dollars (\$10,000) per housing unit in the housing development project on the date the application was deemed complete pursuant to Section 65943. In determining the amount of fine to impose, the court shall consider the local agency's progress in attaining its target allocation of the regional housing need pursuant to Section 65584 and any prior violations of this section. Fines shall not be paid out of funds already dedicated to affordable housing, including, but not limited to, Low and Moderate Income Housing Asset Funds, funds dedicated to housing for very low, low-, and moderate-income households, and federal HOME Investment Partnerships Program and Community Development Block Grant Program funds. The

local agency shall commit and expend the money in the local housing trust fund within five years for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or low-income households. After five years, if the funds have not been expended, the money shall revert to the state and be deposited in the Building Homes and Jobs Trust Fund for the sole purpose of financing newly constructed housing units affordable to extremely low, very low, or low-income households.

(C) If the court determines that its order or judgment has not been carried out within 60 days, the court may issue further orders as provided by law to ensure that the purposes and policies of this section are fulfilled, including, but not limited to, an order to vacate the decision of the local agency and to approve the housing development project, in which case the application for the housing development project, as proposed by the applicant at the time the local agency took the initial action determined to be in violation of this section, along with any standard conditions determined by the court to be generally imposed by the local agency on similar projects, shall be deemed to be approved unless the applicant consents to a different decision or action by the local agency.

(2) For purposes of this subdivision, “housing organization” means a trade or industry group whose local members are primarily engaged in the construction or management of housing units or a nonprofit organization whose mission includes providing or advocating for increased access to housing for low-income households and have filed written or oral comments with the local agency prior to action on the housing development project. A housing organization may only file an action pursuant to this section to challenge the disapproval of a housing development by a local agency. A housing organization shall be entitled to reasonable attorney’s fees and costs if it is the prevailing party in an action to enforce this section.

(l) If the court finds that the local agency (1) acted in bad faith when it disapproved or conditionally approved the housing development or emergency shelter in violation of this section and (2) failed to carry out the court’s order or judgment within 60 days as described in subdivision (k), the court, in addition to any other remedies provided by this section, shall multiply the fine determined pursuant to subparagraph (B) of paragraph (1) of subdivision (k) by a factor of five. For purposes of this section, “bad faith” includes, but is not limited to, an action that is frivolous or otherwise entirely without merit.

(m) Any action brought to enforce the provisions of this section shall be brought pursuant to Section 1094.5 of the Code of Civil Procedure, and the local agency shall prepare and certify the record of proceedings in accordance with subdivision (c) of Section 1094.6 of the Code of Civil Procedure no later than 30 days after the petition is served, provided that the cost of preparation of the record shall be borne by the local agency, unless the petitioner elects to prepare the record as provided in subdivision (n) of this section. A petition to enforce the provisions of this section shall be filed and served no later than 90 days from the later of (1) the effective date of a decision of the local agency imposing conditions on, disapproving, or any

other final action on a housing development project or (2) the expiration of the time periods specified in subparagraph (B) of paragraph (5) of subdivision (h). Upon entry of the trial court's order, a party may, in order to obtain appellate review of the order, file a petition within 20 days after service upon it of a written notice of the entry of the order, or within such further time not exceeding an additional 20 days as the trial court may for good cause allow, or may appeal the judgment or order of the trial court under Section 904.1 of the Code of Civil Procedure. If the local agency appeals the judgment of the trial court, the local agency shall post a bond, in an amount to be determined by the court, to the benefit of the plaintiff if the plaintiff is the project applicant.

(n) In any action, the record of the proceedings before the local agency shall be filed as expeditiously as possible and, notwithstanding Section 1094.6 of the Code of Civil Procedure or subdivision (m) of this section, all or part of the record may be prepared (1) by the petitioner with the petition or petitioner's points and authorities, (2) by the respondent with respondent's points and authorities, (3) after payment of costs by the petitioner, or (4) as otherwise directed by the court. If the expense of preparing the record has been borne by the petitioner and the petitioner is the prevailing party, the expense shall be taxable as costs.

(o) (1) Subject to paragraphs (2), (6), and (7), and subdivision (d) of Section 65941.1, a housing development project shall be subject only to the ordinances, policies, and standards adopted and in effect when a preliminary application including all of the information required by subdivision (a) of Section 65941.1 was submitted.

(2) Paragraph (1) shall not prohibit a housing development project from being subject to ordinances, policies, and standards adopted after the preliminary application was submitted pursuant to Section 65941.1 in the following circumstances:

(A) In the case of a fee, charge, or other monetary exaction, to an increase resulting from an automatic annual adjustment based on an independently published cost index that is referenced in the ordinance or resolution establishing the fee or other monetary exaction.

(B) A preponderance of the evidence in the record establishes that subjecting the housing development project to an ordinance, policy, or standard beyond those in effect when a preliminary application was submitted is necessary to mitigate or avoid a specific, adverse impact upon the public health or safety, as defined in subparagraph (A) of paragraph (1) of subdivision (j), and there is no feasible alternative method to satisfactorily mitigate or avoid the adverse impact.

(C) Subjecting the housing development project to an ordinance, policy, standard, or any other measure, beyond those in effect when a preliminary application was submitted is necessary to avoid or substantially lessen an impact of the project under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(D) The housing development project has not commenced construction within two and one-half years, or three and one-half years for an affordable housing project, following the date that the project received final approval. For purposes of this subparagraph:

(i) “Affordable housing project” means a housing development that satisfies both of the following requirements:

(I) Units within the development are subject to a recorded affordability restriction for at least 55 years for rental housing and 45 years for owner-occupied housing, or the first purchaser of each unit participates in an equity sharing agreement as described in subparagraph (C) of paragraph (2) of subdivision (c) of Section 65915.

(II) All of the units within the development, excluding managers’ units, are dedicated to lower income households, as defined by Section 50079.5 of the Health and Safety Code.

(ii) “Final approval” means that the housing development project has received all necessary approvals to be eligible to apply for, and obtain, a building permit or permits and either of the following is met:

(I) The expiration of all applicable appeal periods, petition periods, reconsideration periods, or statute of limitations for challenging that final approval without an appeal, petition, request for reconsideration, or legal challenge having been filed.

(II) If a challenge is filed, that challenge is fully resolved or settled in favor of the housing development project.

(E) The housing development project is revised following submittal of a preliminary application pursuant to Section 65941.1 such that the number of residential units or square footage of construction changes by 20 percent or more, exclusive of any increase resulting from the receipt of a density bonus, incentive, concession, waiver, or similar provision, including any other locally authorized program that offers additional density or other development bonuses when affordable housing is provided. For purposes of this subdivision, “square footage of construction” means the building area, as defined by the California Building Standards Code (Title 24 of the California Code of Regulations).

(3) This subdivision does not prevent a local agency from subjecting the additional units or square footage of construction that result from project revisions occurring after a preliminary application is submitted pursuant to Section 65941.1 to the ordinances, policies, and standards adopted and in effect when the preliminary application was submitted.

(4) For purposes of this subdivision, “ordinances, policies, and standards” includes general plan, community plan, specific plan, zoning, design review standards and criteria, subdivision standards and criteria, and any other rules, regulations, requirements, and policies of a local agency, as defined in Section 66000, including those relating to development impact fees, capacity or connection fees or charges, permit or processing fees, and other exactions.

(5) This subdivision shall not be construed in a manner that would lessen the restrictions imposed on a local agency, or lessen the protections afforded

to a housing development project, that are established by any other law, including any other part of this section.

(6) This subdivision shall not restrict the authority of a public agency or local agency to require mitigation measures to lessen the impacts of a housing development project under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

(7) With respect to completed residential units for which the project approval process is complete and a certificate of occupancy has been issued, nothing in this subdivision shall limit the application of later enacted ordinances, policies, and standards that regulate the use and occupancy of those residential units, such as ordinances relating to rental housing inspection, rent stabilization, restrictions on short-term renting, and business licensing requirements for owners of rental housing.

(8) (A) This subdivision shall apply to a housing development project that submits a preliminary application pursuant to Section 65941.1 before January 1, 2030.

(B) This subdivision shall become inoperative on January 1, 2034.

(p) This section shall be known, and may be cited, as the Housing Accountability Act.

SEC. 3. Section 33411.3 of the Health and Safety Code is amended to read:

33411.3. If all or any portion of a redevelopment project is developed with low- or moderate-income housing units and low- or moderate-income housing units are developed with agency assistance or pursuant to Section 33413, the agency shall require, by contract or other appropriate means, that the housing be made available for rent or purchase to the persons and families of low or moderate income displaced by the redevelopment project, if those persons or families meet the income eligibility and other requirements for that housing. Those persons and families shall be given priority in renting or buying that housing. However, failure to give that priority shall not affect the validity of title to real property. The agency shall keep a list of persons and families of low and moderate income displaced by the redevelopment project who are to be given priority, and may establish reasonable rules for determining the order or priority on the list.

SEC. 4. Section 34178.8 of the Health and Safety Code is amended to read:

34178.8. (a) Notwithstanding Section 33411.3, if all or any portion of a redevelopment project was developed with low- or moderate-income housing units and low- or moderate-income housing units were developed with redevelopment agency assistance or pursuant to Section 33413, the redevelopment agency's housing successor designated under Section 34176 shall require, by contract or other appropriate means, that the housing be made available for rent or purchase to the persons and families of low or moderate income displaced by the redevelopment project and to a person of low or moderate income who is a descendant of the person displaced by the redevelopment project and who, at the time of displacement, was not

living in the household or had not yet been born, if those persons or families meet the income eligibility and other requirements for that housing. Those persons and families shall be given priority in renting or buying that housing. However, failure to give that priority shall not affect the validity of title to real property. The redevelopment agency's housing successor shall keep a list of persons and families of low and moderate income who are to be given priority pursuant to this section, and may establish reasonable rules for determining the order or priority on the list.

(b) For purposes of this section, "descendant" shall have the meaning provided in Section 6205 of the Probate Code.

SEC. 5. Section 50076.5 of the Health and Safety Code is amended to read:

50076.5. "Limited-equity housing cooperative" means a corporation organized pursuant to Section 817 of the Civil Code and Section 11003.4 of the Business and Professions Code. For purposes of this division, a limited equity housing cooperative is a nonprofit corporation or nonprofit housing sponsor.

SEC. 6. Section 50517.5 of the Health and Safety Code is amended to read:

50517.5. (a) (1) The department shall establish the Joe Serna, Jr. Farmworker Housing Grant Program under which, subject to the availability of funds, there shall be made to local public entities, nonprofit corporations, limited liability companies, and limited partnerships, any of the following:

(A) Loans for the construction or rehabilitation of rental housing for lower-income agricultural employees and their families, including the cost of acquiring the land and any building related thereto and constructing or rehabilitating-related support facilities necessary to the housing. For the funds loaned under this subparagraph, the department shall do all of the following:

(i) Make funds available at the same time it makes funds, if any, available under the Multifamily Housing Program (Chapter 6.7 (commencing with Section 50675)).

(ii) Rate and rank applications in a manner consistent with the Multifamily Housing Program (Chapter 6.7 (commencing with Section 50675)), except that the department may establish additional point categories for the purposes of rating and ranking applications that seek funding pursuant to this paragraph in addition to those used in the Multifamily Housing Program.

(iii) Administer funds subject to this chapter in a manner consistent with the Multifamily Housing Program (Chapter 6.7 (commencing with Section 50675)), except that assisted units may serve agricultural employees and their families with incomes of up to 80 percent of the area median income. Loan terms shall be consistent with Section 50675.6 and any other requirements concerning loan terms in Chapter 6.7 (commencing with Section 50675).

(iv) Only applications meeting the threshold requirements of this subparagraph, and any additional threshold requirements established by the department, shall be eligible to receive funds pursuant to this subparagraph.

(B) Loans that assist development projects involving multiple home ownership units, including single-family subdivisions, for lower-income agricultural employees and their families, including the cost of acquiring the land and constructing or rehabilitating-related support facilities necessary to the housing. Upon completion of construction, the department may convert project loans into grants for programs of assistance to lower-income agricultural employees and their families consistent with the process described in subdivision (c) of Section 50650.3. For the funds loaned under this subparagraph, the department shall do all of the following:

(i) Make funds available at the same time it makes funds, if any, available under the CalHome Program authorized by Chapter 6 (commencing with Section 50650).

(ii) Rate and rank applications in a manner consistent with the CalHome Program authorized by Chapter 6 (commencing with Section 50650), except that the department may establish additional point categories for the purposes of rating and ranking applications that seek funding pursuant to this paragraph in addition to those used in the CalHome Program.

(iii) Administer funds subject to this chapter in a manner consistent with the CalHome Program authorized by Chapter 6 (commencing with Section 50650). Loan terms shall be consistent with loan terms in the CalHome Program authorized by Chapter 6 (commencing with Section 50650).

(iv) Only applications meeting the threshold requirements of this subparagraph, and any additional threshold requirements established by the department, shall be eligible to receive funds pursuant to this subparagraph.

(C) Grants for programs that assist lower-income agricultural employees and their families to become or remain homeowners consistent with the eligible funding purposes described in Section 50650.3. For the funds granted under this subparagraph, the department shall do all of the following:

(i) Make funds available at the same time it makes funds, if any, available under the CalHome Program authorized by Chapter 6 (commencing with Section 50650).

(ii) Rate and rank applications in a manner consistent with the CalHome Program authorized by Chapter 6 (commencing with Section 50650), except that the department may establish additional point categories for the purposes of rating and ranking applications that seek funding pursuant to this paragraph in addition to those used in the CalHome Program.

(iii) Administer funds subject to this chapter in a manner consistent with the CalHome Program authorized by Chapter 6 (commencing with Section 50650).

(iv) Only applications meeting the threshold requirements of this subparagraph, and any additional threshold requirements established by the department, shall be eligible to receive funds pursuant to this subparagraph.

(D) Grants for the acquisition of manufactured housing as part of a program to address and remedy the impacts of current and potential displacement of lower-income farmworker families from existing labor camps, mobilehome parks, or other housing, including the cost of acquiring the land related to the housing and constructing or rehabilitating-related

support facilities necessary to the housing. For the funds granted under this subparagraph, the department shall do all of the following:

(i) Make funds available at the same time it makes funds, if any, available under the CalHome Program authorized by Chapter 6 (commencing with Section 50650).

(ii) Rate and rank applications in a manner consistent with the CalHome Program authorized by Chapter 6 (commencing with Section 50650), except that the department may establish additional point categories for the purposes of rating and ranking applications that seek funding pursuant to this paragraph in addition to those used in the CalHome Program.

(iii) Administer funds subject to this chapter in a manner consistent with the CalHome Program authorized by Chapter 6 (commencing with Section 50650).

(iv) Only applications meeting the threshold requirements of this subparagraph, and any additional threshold requirements established by the department, shall be eligible to receive funds pursuant to this subparagraph.

(2) With respect to any moneys appropriated for the purposes of this section, the department shall determine the amounts, if any to be made available for each of the purposes described in paragraph (1).

(b) (1) The Joe Serna, Jr. Farmworker Housing Grant Fund is hereby created in the State Treasury. Notwithstanding Section 13340 of the Government Code, all money in the fund is continuously appropriated to the department for making grants or loans, or both, pursuant to this section and Section 50517.10, for purposes of Chapter 8.5 (commencing with Section 50710), and for costs incurred by the department in administering these programs.

(2) There shall be paid into the fund the following:

(A) Any moneys appropriated and made available by the Legislature for purposes of the fund.

(B) Any moneys that the department receives in repayment or return of grants or loans from the fund, including any interest therefrom.

(C) Any other moneys that may be made available to the department for the purposes of this chapter from any other source or sources.

(D) All moneys appropriated to the department for the purposes of Chapter 8.5 (commencing with Section 50710) and any moneys received by the department from the occupants of housing or shelter provided pursuant to Chapter 8.5 (commencing with Section 50710). These moneys shall be separately accounted for from the other moneys deposited in the fund.

(c) (1) If funds granted or loaned pursuant to this section constitute less than 25 percent of the total development cost or value, whichever is applicable, of a project assisted under this section, the department may adopt, criteria for determining the number of units in a project to which the restrictions on occupancy contained in the agreement apply. In no event may these regulations provide for the application of the agreement to a percentage of units in a project that is less than the percentage of total development costs that funds granted or loaned pursuant to this section represent.

(2) Prior to funds granted pursuant to this section being used to finance the acquisition of a manufactured home, the grantee shall ensure that the home either is already installed in a location where it will be occupied by the eligible household or that a location has been leased or otherwise made available for the manufactured home to be occupied by the eligible household.

(3) The department shall provide linguistically appropriate services and publications, or require grantees to do so, as necessary to implement the purposes of this section.

(d) The department shall include in its annual report required by Section 50408, a current report of the Joe Serna, Jr. Farmworker Housing Grant Program. The report shall include, but need not be limited to, (1) the number of households assisted, (2) the average income of households assisted and the distribution of annual incomes among assisted households, (3) the rents paid by households assisted, (4) the number and amount of grants or loans, or both, made to each grantee in the preceding year, (5) the dollar value of funding derived from sources other than the state for each project receiving a grant or loan, or both, under this section, and an identification of each source, (6) recommendations, as needed, to improve operations of the program and respecting the desirability of extending its application to other groups in rural areas identified by the department as having special need for state housing assistance, and (7) the number of manufactured housing units assisted under this section.

(e) As used in this section:

(1) “Agricultural employee” has the same meaning as specified in subdivision (b) of Section 1140.4 of the Labor Code, but also includes any person who works on or off the farm in the processing of any agricultural commodity until it is shipped for distribution, whether or not this person is encompassed within the definition specified in subdivision (b) of Section 1140.4 of the Labor Code.

(2) “Grantee” means the local public entity, nonprofit corporation, limited liability company, or limited partnership that is awarded the grant or loan, or both, under this section.

(3) “Housing” may include, but is not necessarily limited to, conventionally constructed units and manufactured housing installed pursuant to either Section 18551 or 18613.

(4) “Local public entity” includes, but is not limited to, the duly constituted governing body of an Indian reservation or rancheria or a tribally designated housing entity as defined in Section 4103 of Title 25 of the United States Code and Section 50104.6.5.

(5) “Limited liability company” means a limited liability company where all the members are nonprofit public benefit corporations.

(6) “Limited partnership” means a limited partnership where all of the general partners are either nonprofit public benefit corporations, limited liability companies, or a combination of nonprofit public benefit corporations and limited liability companies.

(7) “Nonprofit corporations” includes, but is not limited to, a tribally designated housing entity as defined in Section 4103 of Title 25 of the United States Code and Section 50104.6.5.

(f) The department may provide the assistance offered pursuant to this chapter in any area where there is a substantial unmet need for farmworker housing.

(g) The department may adopt guidelines to administer this chapter. Guidelines adopted pursuant to this subdivision shall not be subject to the requirements of Chapter 3.5 (commencing with Section 11340) of Part 1 of Title 2 of the Government Code.

(h) This section shall become operative on January 1, 2022.

SEC. 7. Section 50843.5 of the Health and Safety Code is amended to read:

50843.5. (a) Subject to the availability of funding, the department shall make matching grants available to cities, counties, cities and counties, tribes, and charitable nonprofit organizations organized under Section 501(c)(3) of the Internal Revenue Code that have created and are operating or will operate housing trust funds. These funds shall be awarded through the issuance of a Notice of Funding Availability (NOFA). The department may adopt guidelines to administer this chapter. Any guidelines employed by the department in implementing this chapter shall not be subject to the requirements of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code). Notwithstanding anything to the contrary in this chapter, the terms of this section, and the guidelines authorized above, shall control in the event of any other statutory conflict.

(1) Applicants that provide matching funds from a source or sources other than impact fees on residential development shall receive a priority for funding.

(2) The department shall set aside funding for new trusts, as defined by the department in the guidelines adopted pursuant to this section.

(b) Housing trusts eligible for funding under this section shall have the following characteristics:

(1) Utilization of a public or joint public and private fund established by legislation, ordinance, resolution, or a public-private partnership to receive specific revenue to address local housing needs.

(2) Receipt of ongoing revenues from dedicated sources of funding such as taxes, fees, loan repayments, or public or private contributions.

(c) The minimum allocation to an applicant that is a newly established trust shall be five hundred thousand dollars (\$500,000), or a higher amount as established by the department. The minimum allocation for all other trusts shall be one million dollars (\$1,000,000), or a higher amount as established by the department. All funds provided pursuant to this section shall be matched on a dollar-for-dollar basis with moneys that are not required by any state or federal law to be spent on housing, except as authorized by Chapter 2.5 (commencing with Section 50470), if those funds are used to capitalize a regional housing trust fund. An application for an existing

housing trust shall not be considered unless the department has received adequate documentation of the deposit in the local housing trust fund of the local match, or evidence of a legally binding commitment to deposit matching funds, and the identity of the source of matching funds. An application for a new trust shall not be considered unless the department has received adequate documentation, as determined by the department, that an ordinance imposing or dedicating a tax or fee to be deposited into the new trust has been enacted or the applicant has received a legally binding commitment to deposit matching funds into the new trust. Funds shall not be disbursed by the department to any trust until all matching funds are on deposit and then funds may be disbursed only in amounts necessary to fund projects identified to receive a loan from the trust within a reasonable period of time, as determined by the department. Applicants shall be required to continue funding the local housing trust fund from these identified local sources, and continue the trust in operation, for a period of no less than five years from the date of award. If the funding is not continued for a five-year period, then (1) the amount of the department's grant to the local housing trust fund, to the extent that the trust fund has unencumbered funds available, shall be immediately repaid, and (2) any payments from any projects funded by the local housing trust fund that would have been paid to the local housing trust fund shall be paid instead to the department and used for the program or its successor. The total amount paid to the department pursuant to (1) and (2), combined, shall not exceed the amount of the department's grant.

(d) (1) Funds shall be used for the predevelopment costs, acquisition, construction, or rehabilitation of the following types of housing or projects:

(A) Rental housing projects or units within rental housing projects. The affordability of all assisted units shall be restricted for not less than 55 years.

(B) Emergency shelters, transitional housing, and permanent supportive housing, as these terms are defined in the guidelines adopted pursuant to this section.

(C) For-sale housing projects or units within for-sale housing projects.

(D) Notwithstanding any other provision of this chapter, the department may use funds appropriated pursuant to this chapter to make grants to trust funds for the construction of accessory dwelling units as defined in Section 65852.2 of the Government Code, or junior accessory dwelling units as defined in Section 65852.22 of the Government Code, and to repair, reconstruct, or rehabilitate, in whole or in part, accessory dwelling units and junior accessory dwelling units.

(2) At least 30 percent of the dwelling units or shelter beds assisted by the grant and the match shall be affordable to, and restricted for, extremely low income households, as defined in Section 50106. No more than 20 percent of the dwelling units assisted by the grant and the match shall be affordable to, and restricted for, moderate-income persons and families whose income does not exceed 120 percent of the area median income. The remaining funds shall be used for projects, units, or shelters that are affordable to, and restricted for, lower income households, as defined in Section 50079.5.

(3) If funds are used for the acquisition, construction, or rehabilitation of for-sale housing projects or units within for-sale housing projects, the grantee shall record a deed restriction against the property that will ensure compliance with one of the following requirements upon resale of the for-sale housing units, unless it is in conflict with the requirements of another public funding source or law:

(A) If the property is sold within 30 years from the date that trust funds are used to acquire, construct, or rehabilitate the property, the owner or subsequent owner shall sell the home at an affordable housing cost, as defined in Section 50052.5, to a household that meets the relevant income qualifications.

(B) The owner and grantee shall share the equity in the unit pursuant to an equity-sharing agreement. The grantee shall reuse the proceeds of the equity-sharing agreement consistent with this section. To the extent not in conflict with another public funding source or law, all of the following shall apply to the equity-sharing agreement provided for by the deed restriction:

(i) Upon resale by an owner-occupant of the home, the owner-occupant of the home shall retain the market value of any improvements, the downpayment, and their proportionate share of appreciation. The grantee shall recapture any initial subsidy and its proportionate share of appreciation, which shall then be used to make housing available to persons and families of the same income category as the original grant and for any type of housing or shelter specified in paragraph (1).

(ii) For purposes of this subdivision, the initial subsidy shall be equal to the fair market value of the home at the time of initial sale to the owner-occupant minus the initial sale price to the owner-occupant, plus the amount of any downpayment assistance or mortgage assistance. If upon resale by the owner-occupant the market value is lower than the initial market value, then the value at the time of the resale shall be used as the initial market value.

(iii) For purposes of this subdivision, the grantee's proportionate share of appreciation shall be equal to the ratio of the initial subsidy to the fair market value of the home at the time of the initial sale.

(4) Notwithstanding subparagraph (A) of paragraph (1) or paragraph (3), a local housing trust fund shall not be required to record a separate deed restriction or equity agreement for any project or home that it finances, if a restriction or agreement that meets the requirements of subparagraph (A) of paragraph (1) or paragraph (3), as applicable, has been, or will be, recorded against the property by another public agency.

(e) Loan repayments shall accrue to the grantee housing trust for use pursuant to this section. If the trust no longer exists, loan repayments shall accrue to the department for use in the program or its successor.

(f) (1) In order for a city, county, or city and county to be eligible for funding, the applicant shall, at the time of application, meet both of the following requirements:

(A) Have an adopted housing element that the department has determined, pursuant to Section 65585 of the Government Code, is in substantial

compliance with the requirements of Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of the Government Code.

(B) Have submitted to the department the annual progress report required by Section 65400 of the Government Code within the preceding 12 months, if the department has adopted the forms and definitions pursuant to subparagraph (B) of paragraph (2) of subdivision (a) of Section 65400 of the Government Code.

(2) In order for a nonprofit organization applicant to be eligible for funding, the applicant shall agree to utilize funds provided under this chapter only for projects located in cities, counties, or a city and county that meet both of the following requirements:

(A) Have an adopted housing element that the department has determined, pursuant to Section 65585 of the Government Code, to be in substantial compliance with the requirements of Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of the Government Code.

(B) Have submitted to the department the annual progress report required by Section 65400 of the Government Code within the preceding 12 months, if the department has adopted the forms and definitions pursuant to subparagraph (B) of paragraph (2) of subdivision (a) of Section 65400 of the Government Code.

(3) A city, county, or city and county that has received an award pursuant to this section shall not encumber any program funds unless it has an adopted housing element the department has determined, pursuant to Section 65585 of the Government Code, is in substantial compliance with the requirements of Article 10.6 (commencing with Section 65580) of Chapter 3 of Division 1 of Title 7 of the Government Code.

(g) Recipients shall have held, or shall agree to hold, a public hearing or hearings to discuss and describe the project or projects that will be financed with funds provided pursuant to this section. As a condition of receiving a grant pursuant to this section, any nonprofit organization shall agree that it will hold one public meeting a year to discuss the criteria that will be used to select projects to be funded. That meeting shall be open to the public, and public notice of this meeting shall be provided, except to the extent that any similar meeting of a city or county would be permitted to be held in closed session.

(h) No more than 5 percent of the funds appropriated to the department for the purposes of this program shall be used to pay the department's costs of administration of this section. Notwithstanding any other law, the department may also allow a grantee to use up to 5 percent of the grant award for administrative costs.

(i) A local housing trust fund shall encumber funds provided pursuant to this section no later than 60 months after receipt. In addition, any award to a local housing trust that was under contract on January 1, 2013, shall be extended by 12 months, subject to progress benchmarks to be established by the department. Any funds not encumbered within that period shall revert to the department for use in the program or its successor.

(j) Recipients shall be required to file periodic reports with the department regarding the use of funds provided pursuant to this section. No later than December 31 of each year in which funds are awarded by the program, the department shall provide a report to the Legislature regarding the number of trust funds created, a description of the projects supported, the number of units assisted, and the amount of matching funds received.

SEC. 8. If the Commission on State Mandates determines that this act contains costs mandated by the state, reimbursement to local agencies and school districts for those costs shall be made pursuant to Part 7 (commencing with Section 17500) of Division 4 of Title 2 of the Government Code.
